Objective

As a highly motivated and quick learner with a strong analytical mind and a passion for solving complex challenges, I'm eager to contribute my skills to a dynamic and innovative environment. I'm seeking a role of Software Development position, where I can leverage my technical expertise and problem-solving abilities to deliver impactful solutions that address critical business needs. I'm excited to contribute to cutting-edge projects, learn from experienced professionals, and grow within a collaborative team.

Skills & Competencies

Technical Competencies:

- Programming:** Java, JavaScript, HTML, CSS, React Js, Tailwind CSS, Bootstrap
- Tools & Frameworks:** Power BI, Excel, Figma, Git & GitHub
- Database:** MySQL, Oracle Database

Behavioural Skills:

- Strong analytical and problem-solving abilities.
- Effective communication and teamwork.
- Adaptability to new technologies and processes.

Education

Bachelor of Technology in Computer Science (2021 – 2025)
Greater Noida Institute of Technology (IPU)
CGPA: 8.2/10

Higher Secondary Education (Class XII) (2021)
Govt. Sarvodaya Co-Ed Sr. Sec School, N.D-110043
Percentage: 77.6%

Secondary Education (Class X) (2019)
New Krishna Public School, Najafgarh, N.D-110043
Percentage: 87%

Work Experience

- Web Developer Intern, CodSoft Pvt Ltd** (January, 2024 – February, 2024)
Successfully completed a 4-week virtual internship at CodSoft, focusing on web development. Learned and applied industry-standard development methodologies. Collaborated with the team to brainstorm ideas and review code.
- Python Developer Intern, Octanet Services Pvt Ltd** (February, 2024 – March, 2024)
Collaborated with a team of developers to innovate and design a new module. Adapted quickly to new technologies and tools, ensuring project milestones were met on time.
- Sap S/4 HANA Intern, JIL Information Technology** (May, 2024 – July, 2024)
Collaborated with cross-functional teams to innovate and integrate custom business processes into SAP S/4 HANA ERP. Analysed business requirements and user feedback to strategize and implement SAP S/4 HANA solutions aligned with organizational goals.
- Software Development Internship Training Program, Qspiders** (September, 2024 – Present)
Currently pursuing a comprehensive Software Development Internship Training Program in Java Full Stack at Qspiders. The program focuses on core Java, advanced Java concepts, database management using MySQL, backend development with Spring Boot and Hibernate, and frontend development using React JS. This intensive training is equipping me with in-demand skills and practical experience to excel in the field of software development.

Certifications

- Java Development:** Completed a comprehensive udemy certification program focused on core Java programming concepts, including object-oriented programming, data structures, and algorithms. Gained practical experience through hands-on exercises and projects.
- JavaScript:** Completed comprehensive training and practice in JavaScript, covering core concepts, ES6+ syntax, DOM manipulation, and asynchronous programming.
- MySQL Database Management:** Completed comprehensive training and practice in database management, covering SQL queries, data manipulation, and database design concepts.
- Figma Proficiency:** Completed course from udemy in UI/UX design principles using Figma. Gained hands-on experience in creating user interfaces, wireframing, and prototyping user experiences.
- Microsoft Excel Proficiency:** Developed proficiency in Microsoft Excel, including data entry, data manipulation, data analysis, and the use of Excel functions and formulas.

Relevant Projects

- Portfolio:** Strategized a personal portfolio website showcasing skills and achievements.
- Currency Converter:** Engineered a dynamic currency conversion tool leveraging API, enhancing user experience with real-time exchange rate updates.
- To-Do Web Application:** Developed and implemented task management features, optimized for user productivity.
- Rock Paper Scissors Game:** Innovated and designed a single player game using JavaScript.

Interests & Hobbies

- 1.Playing chess
- 2.Playing cricket
- 3.Reading technical blogs
